

**NOTICE OF RECEIPT OF THE PERMIT RENEWAL APPLICATION
FOR SAFETY-KLEEN SYSTEMS, INC.
KNOXVILLE, KNOX COUNTY**

Safety-Kleen Systems, Inc. (SKS), TND 98 777 7695, submitted Part A and Part B hazardous waste management permit applications on March 31, 2014, to the Tennessee Department of Environment and Conservation's (TDEC's) Division of Solid Waste Management (DSWM). This hazardous waste management permit application is for the renewal of SKS's current permit (TNHW-118) to continue to operate an existing hazardous waste container storage facility located at 6617 Pleasant Ridge Road, Knoxville, TN 37921 (see map). A Pre-Application Public Meeting was conducted by the facility on February 26, 2014, as required by Tennessee Rule 0400-01-.07(1)(m). No members of the general public attended the hearing, and no public comments were received at this meeting.

SKS is an international service-oriented company whose customers are primarily engaged in automotive repair, industrial maintenance, and dry cleaning. The company offers solvent collection and reclamation services for its customers, most of whom generate less than 1,000 kilograms (2,200 pounds) of waste per month.

This SKS facility consists of one structure approximately 10,000 square feet in size, which houses offices, a loading dock, a return and fill station, and a rear warehouse in which the container storage area is located. One tank farm with five vertical above ground storage tanks in concrete diking contains one 20,000 gallon vertical tank used to store spent mineral spirits; one 20,000 gallon vertical tank used to store clean 150 mineral spirits; and three 20,000 gallon vertical tanks that are used to store used oil. The hazardous waste units for this facility consist of one container storage area with a total storage capacity of 6,912 gallons; one 20,000 gallon (nominal) aboveground storage tank; and one return and fill wet dumpster with a capacity of 162 gallons.

The permit application also includes an update on the status of all Solid Waste Management Units (SWMUs) and Areas of Concern (AOC). Currently, no units at the facility require corrective action.

Tennessee Hazardous Waste Management Regulations (Regulations) require that the facility submit the permit renewal application at least 180 days before the current permit expires (September 30, 2014 for this facility), thus enabling the facility to continue to operate under the current permit until another permit is issued or denied. Renewal of this permit will allow the facility to continue its operation for up to ten years.

As set forth in the Regulations, a complete permit application, consisting of a Part A and a Part B, must include certain text, drawings and other information adequate to demonstrate that the facility will comply with the various technical and administrative standards applicable to such a facility. Evaluation of the renewal application involves an in-depth review of the application materials by DSWM staff and subsequent correspondence between DSWM and the facility identifying and correcting any deficiencies in the submitted information. Once the permit application is determined to be complete, DSWM will make a tentative decision to either grant or deny the permit and issue either a draft permit or a notice of intent to deny the permit. Public Notice will be given of this tentative decision, and the public will have at least 45 days to submit written comments on the draft permit/proposed action. A public hearing, if requested, may also be held to receive public comments within this public comment period. After considering the public comments received and making any appropriate revisions, the DSWM Director will issue

a final permit decision to either issue a final permit or terminate the existing permit. A Response to Comments will also be issued at that time.

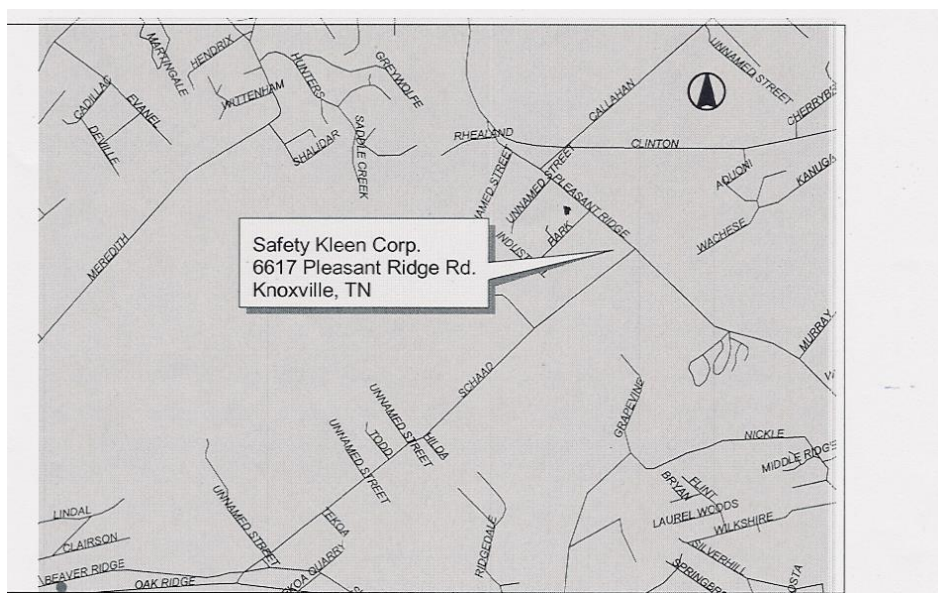

Interested persons may view the renewal application at any of the following locations: TDEC's Knoxville Field Office, 3711 Middlebrook Pike, Knoxville, TN 37921 (865-594-6035); Powell Branch Library, 330 W. Emory Road, Powell, TN 37849 (865-947-6210); TDEC's Nashville Central Office, William R. Snodgrass Tennessee Tower, 312 Rosa L. Parks Ave., 14th Floor, Nashville, TN 37243 (615-532-0780). Normal state office hours are 8:00 a.m. to 4:30 p.m. on weekdays, excluding legal holidays. A copy of this notice is available for viewing at www.tn.gov/environment/ppo.

Further information on this matter may be obtained by contacting Mr. Carl Williams of Safety-Kleen Systems, Inc., at 864-879-0832. Information, opinions, and inquiries may be directed to Ms. Rita A. Swett of DSWM throughout the permit review process by mail at William R. Snodgrass Tennessee Tower, 312 Rosa L. Parks Ave., 14th Floor, Nashville, TN 37243, telephone 615-532-0828, fax 615-532-0348 or e-mail rita.swett@tn.gov.

Persons wishing to be on DSWM's mailing list should obtain a Mailing List Request form by calling or writing the Public Participation Officer, DSWM, TDEC, William R. Snodgrass Tennessee Tower, 312 Rosa L. Parks Ave., 14th Floor, Nashville, TN 37243 (615-532-0798) or e-mail Solid.Waste@tn.gov.

TDEC is an Equal Employment Opportunity/Affirmative Action (EEO/AA) employer. TDEC does not unlawfully discriminate on any basis prohibited by applicable law in any of its programs, services or activities.

EEO/AA inquiries or complaints may be directed to the EEO/AA Coordinator, Office of General Counsel, at 1-888-867-7455. ADA/AA inquiries or complaints should be directed to the ADA/AA Coordinator, HR Division, at 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service (1-800-848-0298).
